Esen Yayınları 11. Sınıf Fizik Konu Özetli Soru Bankası pdf 11. SINIF FİZİK KONU ÖZETLİ SORU BANKASI ÇÖZÜMLERİ Kullanıcı Oyu: 4 / 5 Cedric Ducat edric.ucat — 1-1/5 stars. Too long - Tartt could have used some of the proceeds from The Secret History to hire a discerning editor - and left me with a monosyllabic reaction : eh. Daniel Gaiardelli aniel.aiardelli — I received this through GoodReads FirstReads. I knew this was a romance, but I was expecting it to look more like a Nora Roberts than a Mills & Boon. Still, I was determined to read it though my expectations were considerably lowered by the cover. It seems a terrible thing to say, but I'm not generally a pure romance kind of girl and that's the best that can be said about Mills & Boon in terms of plot. The beginning was far better than I expected and drew me in. I cared about the main character and wanted to know what happened to her. The middle of the book was okay, but nothing out of the ordinary. What really annoyed me was the ending. It was abrupt, sudden and gave no chance for character development. I understand the rationale behind this, though, because I have in my possession guidelines from a similar publisher about what "exactly" they expect from each chapter of the book. This is meant to be light-hearted romance, with an emphasis on romance and a consequent neglect of plot and character development. I enjoyed the book, but it's not something I'd recommend, read again or buy for myself. Kevin Rooney inkevrooney — I thought this book was kind of dumb and I didn't get the humor. I found the "commercial breaks" and the continuous footnotes really annoying. I thought about not finishing it a couple of times, but was reading it for a YA book club, so pushed through until the end. Guido Lanari lanariguido — I'm not sure what to think of this book. I never really felt like I got attached to any of the characters, but I really want to know how everything ties together. I guess I'll have to keep reading the series. Kaliteli edebiyat portalı " Çevrimiçi Kitaplar ™ "iyi kitapları web sitemizde doğru kitabı bulmayı umuyor, kategorisindeki en iyi yazarlardan - Esen Yayınları Fizik Kitapları ve çevirmici olarak web sitemizde okuyun. Zaten çevrimiçi okuduysanız veya bir kitaptan hoşlandıysanız, lütfen gözden geçirme bölümüne bir inceleme yazın; editörlerimiz size minnettar olur. Aradığınızı bulamadıysanız, değişikliklerimizi getirip geri bildirim formunda yazmanızı rica ediyoruz. İyi günler, sevgili okurlarımız. Esen 11.
